

Technical Leader Forum

New Productivity Group recognized that the value of peer forums for CEO's and entrepreneurs could be replicated for leaders, and **emerging leaders**, of new product development. The opportunity to receive focused leadership development, develop business skills and participate in confidential sharing of like experiences is priceless in today's unforgiving race to develop new products.

Direct Benefits from exclusive membership in the **Breakthrough Forum**

- ◆ Experience "breakthroughs" in your thinking
- ◆ Gain valuable focused leadership and management training
- ◆ Stay informed about state-of-the-art science management
- ◆ Form strong bonds with other key technical leaders
- ◆ Membership is limited to 12 exclusive high-quality peers.
- ◆ Other membership benefits (too numerous to mention!)

"My forum provides practical advice to real world problems from people who have tread the path before. It provides me a trustworthy, proven network of resources."

--**Inner Circle Member**

Learn more in 4 hours each month than you do in the other 700+

"Each member gets counsel that will absolutely make him more successful in his business. If a member implements one good idea he gets from his peers...he can earn or save his company hundreds of thousands of dollars."

--**Renaissance Executive Forum Member**

Annual Curriculum

- Formal Peer Feedback
- Leadership Development
- Best in Class Case Studies
- Management of Science
- Informal Networking

"During my years of coping with mergers, technology shifts, HR issues and continual demands for improved productivity I would have welcomed the opportunity to learn from other R&D leaders experiencing similar challenges."

-- **Rod Greder, Ph.D., President, New Productivity Group**

Insightful Feedback. Breakthrough Solutions. Career-Enhancing Development.

New Productivity Group is composed of **seasoned business executives** with proven skills and extensive experience in new product development, sales, marketing, business development and training & development. They have learned valuable lessons from peers formally and informally that were worth more than a Ph.D., MBA or M.D.
